Trade and Business

The property is run purely under management, with the owners not involved in the day-to-day running of the business. It is ideally situated to benefit from the substantial number of year-round visitors to the city.

It shows an average weekly turnover of between £10,000 to £15,000 net of VAT per week. With the exception of the two years that were most impacted by Covid, it has consistently showed these levels from 2018 onwards. Profits are not as strong as they could be due to level of staffing currently employed. A more hands on owner would be able to reduce these costs and keep a tighter reign on other day to day expenditure and drive the net-profit much harder. More detailed accounting information will be made available to prospective parties after viewing the property.

This is a great property and business in a superb location that presents an ideal opportunity to build and develop from the solid base established by the current and previous owners.

Fixtures and Fittings

All trade fixtures and fittings will be included in the sale of the property. A full inventory will be provided on agreement of a purchase.

Licences

There is a Premise Licence for the property

Terms

Sale of the freehold asset, goodwill of the business and all trade fixture and fittings included within the price.

All current staff will be subject to TUPE regulations and transfer with the business. Full details will be provided.
